

Extended Zone

10m to 30m

Intermediate Zone

1.5m to 10m

Immediate Zone

0m to 1.5m

HOME IGNITION ZONE

The Home Ignition Zone is the 30m area around your house where you can have the biggest impact on your house surviving a wildfire. Learn more at firesmartbc.ca.

IMMEDIATE ZONE

0-1.5m
from your home

-  **Goal:**
Stop embers from collecting and igniting your house or nearby - this is the most important zone.
-  **Where to Start:**
Keep a non-flammable surface around your home, like gravel, stone, or concrete.

INTERMEDIATE ZONE

1.5-10m
from your home

-  **Goal:**
Slow fire down and prevent it from spreading to your home.
-  **Where to Start:**
Store flammable materials safely: keep wood piles, propane tanks, vehicles, vegetation and other fuels away from the house.

EXTENDED ZONE

10-30m
from your home

-  **Goal:**
Reduce fire intensity and slow it across the property.
-  **Where to Start:**
Thin small trees and shrubs to break up fuel and create more open space.
