SPONSORSHIP OPPORTUNITIES

Wildfire Resiliency and Training Summit

May 10–14, 2023 | Vancouver and North Vancouver, BC

EVENT

On May 10-14, 2023, more than 700 members of BC's FireSmart community will gather in Vancouver for the Wildfire Resiliency and Training Summit, an important five-day gathering formally known as the FireSmart BC Conference and the WUI Symposium. The week-long Summit will be an ideal opportunity for your company or organization to showcase your products, services or expertise to the FireSmart community who works tirelessly to make BC homes and communities fire resilient.

AUDIENCE

Members of the FireSmart community attending this conference will include key staff from First Nations, local governments, the Province of BC, fire departments province-wide, as well as local FireSmart representatives, wildfire mitigation specialists, firefighters, researchers, emergency managers, wildfire scientists and industry partners.

REACH

Through the year-round work carried out by Summit attendees, your sponsorship reach will be amplified as they work with municipalities, First Nations, homeowners, home builders, renovation contractors, ranchers, farmers, landscapers, schools and others to educate them about the products and best practices that help make communities and homes fire resilient.

As the importance of being FireSmart continues to grow in the face of ongoing climate change, the Wildfire Resiliency and Training Summit will provide your organization with unique sponsorship, exhibitor and networking opportunities to showcase how your products, services and expertise have a valuable role to play in keeping communities safe and building fire resiliency across British Columbia.

For more information, please visit the Wildfire Resiliency and Training Summit [website](#).
